

AAI Welcomes New Members (2021)

AAI is very pleased to welcome all new members for the 2021 membership year (through October 31). Members are proud of their association with AAI and benefit from career development programs, networking opportunities, scientifically strong meetings and courses, the top-ranking scientific journal, *The Journal of Immunology*, and the open access, fully peer-reviewed journal, *ImmunoHorizons*. Listed below are the 726 new Trainee members added in 2021. (Also added in 2021 were 413 Regular and Associate members – see the March 2022 *AAI Newsletter*).

Please personally welcome the new members you know and make a point of introducing yourself to those near you whom you have not met. The new Trainee members listed below appear in alphabetical order by state and city (U.S.) and by country and city (International).
